## **About the Journal**

The International Journal of Women, Sustainability and Leadership Studies is a half-yearly peer-reviewed academic journal produced by the Research eWisely Lab. The Journal aims to publish research, reports, and literature reviews relating to women, sustainability, leadership and SDGs. We accept publications in English, Spanish and Portuguese that cover the following topics:

- Women, the Sustainable Development Goals (SDGs) and the Agenda 2030
- Women, Corporate Sustainability Reporting and Performance
- Women, Sustainable Energy and Extractives (Mining, Oil and Gas)
- Women, Sustainability and Climate Change
- Women, Education and Impact Research for Sustainable Development
- Women and Sustainable Lifestyles
- Women and Sustainable fashion
- Women and Sustainable Entrepreneurship
- Women, Sustainable Livelihoods, agriculture and fisheries
- Women, Sustainability and Leadership
- Women, Sustainability and Impact Investing

The way that women are represented or challenged within disruptive industries and challenging environments, the linkages with the industry and socio-environmental sustainability issues, attraction and retention of women at the work place, women entrepreneurs and implications for their livelihoods, for example, are some of the topics this journal covers. The journal is designed to be an interdisciplinary journal, and it encourages young scholars, practitioners and students within all relevant disciplines to submit their work for publication.

Accordingly, we invite contributions. The call for submissions is general, so as long as articles deal with issues dealing with women and sustainability theory we consider them for publication. Contributions will be blind peer-reviewed, and submitted work should be original and not published or under consideration for publication elsewhere. General enquiries, should be directed to [investewisely@gmail.com](mailto:investewisely@gmail.com).
